

Permission to use photographs, pictures, texts and other student work in our school publications.

In order to present the work of our school to the public, we are dependent on the support of parents and children. We need drawings, texts or other children's work as well as photos showing lessons and school life. However, since every person has the right to determine his or her own intellectual property and above all has a right "to his or her own image", we need the permission of his or her legal guardian before publication. In order to facilitate our work in this respect, we ask you to give us general permission to publish in advance. It goes without saying that we handle the work of your child responsibly and respectfully, as well as photos showing your child. Without such a regulation, it would be very difficult for us to carry out public relations work in this respect. Even if such a consent would make the work considerably easier, it is of course voluntary.

As the child's parents/guardian, we/I agree that the information marked below that concerns our/my child may be used for the school's publications.

We can/I can withdraw the consent given at any time.

The disapproval or withdrawal of consent does not result in any disadvantages for our/my child.
